

REMARKS

This paper is submitted pursuant to a conversation between Examiner Shawn S. An and attorney Richard C. Salfelder on February 26, 2009 and is intended to replace the previous Amendment After Notice of Allowance submitted on February 25, 2009. During the telephone conversation on February 26, 2009, Examiner An identified a typographical mistake, specifically a missing "the" before the term "VSB transmitter" in the last limitation of claim 64, which is corrected with this paper.

Claims 41-77 and 79 are all the claims in the application, which has been allowed, with claims 41, 64 and 76 being the independent claims. Applicant respectfully submits that the amendments to claims 64 and 76 are pursuant to a telephone conversation on February 19, 2009 between attorney Richard Salfelder and Examiner Shawn S. An and do not change the scope of the claims.

Claims 64 and 76 have been amended to recite the associated apparatus that performs the steps of the invention. No new matter has been added as the amendments have support in the specification as originally filed. It is respectfully submitted that the claims are still in condition for allowance.

If for any reason the Examiner finds the proposed amendments not in condition for entry, the Examiner is requested to call the undersigned attorney at the Los Angeles, California, telephone number (213) 623-2221 to discuss the steps necessary for placing the application in condition for allowance.
